

Work Experience

Web Developer **PT Pentacode Digital** **Jan 2023–Oct 2025**
Bandung, Indonesia

PT Pentacode Digital is an Indonesia-based IT services and digital solutions company that focused on delivering end-to-end technology and creative services.

- Delivered 6+ production client websites, improving usability and responsiveness by building React, Vue.js, and Laravel-based UI systems.
- Improved page load performance by ~15–20%, optimizing component structure and frontend state management.
- Reduced UI-related bugs by ~20%, applying semantic HTML, accessibility standards, and cross-device testing practices.
- Shortened feature delivery cycles by ~15%, integrating frontend systems cleanly with backend APIs and shared data contracts.

Web Developer **Allied Container Group** **Oct 2025–Jan 2026**
Remote, Indonesia

Allied Container Group is a Singapore-based logistics leader specializing in container haulage, depot operations, warehousing, and technology-enabled supply chain solutions for global transport networks.

- Delivered 4+ production features supporting gate-in/gate-out and depot workflows by building full-stack modules using React and Laravel.
- Improved operational visibility for 2+ internal teams, developing real-time dashboards with charts and performance metrics.
- Reduced manual reporting workload by ~25%, implementing automated reporting pipelines and email notification systems.
- Improved frontend performance by ~20%, optimizing React state management, hooks usage, and reusable component architecture.
